GOENCHEM DAIZ YOJANA

(A Scheme for the protection and
promotion of Traditional Occupations/
/Businesses of Goa by providing
assistance to the people engaged therein,
after their accreditation and registration
with
“Goa State Traditional Occupations
Accreditation Council”)

The Government of Goa is pleased to make
the following Scheme to provide assistance

to the people engaged in Traditional
Occupations/Businesses of Goa with the
objective of protecting and promoting these
occupations/businesses practiced by Goans
since times immemorial. This is the first
composite and comprehensive Scheme ever
to be implemented by a State Government
in India for the protection and promotion of
traditional occupations/businesses.

1. Short title and commencement.— This
Scheme may be called “GOENCHEM DAIZ
YOJANA”. The Scheme shall come into force
from the date of its publication in the Official
Gazette of Goa Government and shall be
implemented through Directorate of Social
Welfare, Government of Goa.

2. Objective.— The objective of the Scheme
“GOENCHEM DAIZ YOJANA” is primarily to
protect and promote the traditional
occupations/businesses of Goa by providing
financial and other types of assistance to the
people engaged in these occupations/
/businesses, after their accreditation and
registration with “Goa State Traditional

Occupations Accreditation Council" a body constituted by the Government of Goa.

The objective set by the Government in this Scheme has the following considerations:

(a) The traditional occupations/ businesses have great scope for their development as, even in the present industrialized, liberalized and globalised economy, they fulfil the needs of the society and a large number of them cater to the individual tastes of the people. Their development will be consistent with universal concerns about the future of informal economy sector in view of multifarious challenges created by globalization.

(b) They are small scale production or service units and, as such, they promote much needed decentralization of the economy of Goa, and are environment-friendly.

(c) They have provided employment to a large number of people of Goa from times immemorial, and have, even today, growing employment potential. Considering this important role being played by these occupations/businesses, there is pressing need to conserve the traditional knowledge and skills associated with these occupations/businesses and empower the people engaged in these occupations/businesses by way of positive measures to enable them to face the severe competition from mass-produced, machine-made and globally marketed products.

(d) They have been the sources and means of livelihood of the weaker sections of the society, particularly of the downtrodden and tribal people in Goa. It is, therefore, incumbent upon the Government to safeguard their right to livelihood by protecting and promoting these occupations/businesses in Goa.

(e) They are the symbols of the cultural heritage of Goa and, therefore, their

protection and promotion will strengthen the cultural identity of the Goan people.

(f) They can play a vital role in fulfilling the demands of the tourism industry in Goa.

3. *Definitions.*— (a) Traditional Occupations (TO) and Traditional Businesses (TB) of Goa means all those market and employment oriented, economically active businesses and occupations of resident Goans mostly in informal and largely unorganized sector of Goa's economy, which have proven operational/production/marketing history before liberation of Goa (1961) as testified by the local people/knowledgeable local experts and where available, supported by published documents/product samples/ethnographic/museum displays, and which do not exclude rejuvenated/revived TB and TO at any point of time after liberation.

(b) Government means The Government of Goa.
